 07:06:14 From Rajintha (Raj) Gunawardena : Definitely unlocked

Thanks!

07:24:38 From Doug Neill : Share one takeaway here in the chat if you're willing!

07:25:19 From Faustina Hwang : I appreciate the structured/systematic approach to developing the sketch

07:25:21 From Avril : This has given me the confidence to try - even though I don't feel artistic!

07:25:34 From Faustina Hwang : Reacted to "This has given me th..." with ❤️

07:25:49 From Lynda Webb : I look forward to watching the previous sessions. Appreciated the clarity of presentation. I will definitely have a go at working in this way

07:25:51 From Anne Vanhoestenbergh : Thanks Doug for planing/delivering, and thanks to Christopher for enabling this to happen!

07:26:01 From Zoe Hancox : I've enjoyed learning about the different ways to visualise things. I've done a mix of similar sketches to you and a few cartoon type sketches to explain 'why' ideas

07:26:23 From Sami Rahman : I think my takeaway is: visualising an academic paper/idea really forced me to digest/critique it more than if I just speed read the paper

07:26:30 From Faustina Hwang : Reacted to "I think my takeaway ..." with ❤️

07:26:35 From Avril : The visual process is also making it clearer to be able focus on and target the key messaging.

07:26:57 From Amanda Foust : Thank you very much! Very interesting and fun!

07:27:05 From Lynda Webb : Reacted to "I think my takeaway ..." with ❤️

07:27:12 From Sami Rahman : Thank you for the workshop!

07:27:32 From Rajintha (Raj) Gunawardena : Wonderful insights. The structured way of approaching this is very nice.

07:27:35 From Faustina Hwang : Very much appreciate Doug's well-planned and well-delivered sessions + email follow-ups, and huge thanks to Christopher for making this available to the community.

07:27:58 From Zoe Hancox : Thank you for the sessions! They've been great 😊

07:28:05 From Avril : The sessions have been fantastic - thank you so much.

07:28:08 From Faustina Hwang : lovely to meet everyone and hope to cross paths again.

07:28:25 From Lynda Webb : Reacted to "lovely to meet

every..." with ❤️

07:28:42 From Anne Vanhoestenberghé : Doug, inspiration in my case takes a long time to lead to action, but I know it will, thanks

07:29:44 From Lynda Webb : Christopher, maybe someone could try visual representing the co-creation training that we are presenting on June 6th

07:30:49 From Doug Neill : Other terms to search: visual facilitation

07:31:38 From Doug Neill : And graphic recording

07:31:50 From Avril : That's sounds amazing Lynda.
